

Hello,

This is in response to your letter and questionnaire.

Kevin M. Kuehl  
511 South State Street  
Waupaca, WI 54981  
715-258-9439  
[www.kuehlforassembly.com](http://www.kuehlforassembly.com)  
State Assembly 40th district

1            1            Universal health care  
              2            Fair Taxes: Close loopholes for big business, expect more  
from the  
wealthiest, ease burden on lower and middle income.  
              3            Promote energy independence, renewable energy, etc.

2            Parity for mental health care, and make it part of a universal  
health care plan

3            Universal health care will eliminate the disparity between the non-  
disabled unemployed and the disabled unemployed. Payments and/or other  
services should then be made sufficient to allow for meaningful lives.

4            I'm new to this stuff, I would have to turn to the advice of  
experienced legislators, other Democrats first, to find the help  
possible.

5            I believe so, but do not know much about this program or others. I  
think dollars are best spent helping people live independently  
whenever possible.

6            Again, look for advice with more experienced legislators. Work with  
the schools to try to provide alternative extracurricular options and/  
or transportation.

7            I would certainly listen to the concerns of the disabled community  
and work to eliminate the barriers to meeting their needs, I have no  
specifics at this time.

Kevin M. Kuehl
